Claim 14 (canceled).

Claim 15 (canceled).

13/16. (Original) A method as defined in claim 15, wherein the folder identifier is unique across the content index.

14/17. (Original) A method as defined in claim 11, wherein the scope restriction is a Uniform Resource Locator.

Claims 18 - 23 (canceled).

15/24. (Previously Presented) A method as defined in claim 11, wherein the step for generating a subset list of document identifiers further comprises a step for comparing the first list of document identifiers with the second list of document identifiers.

16/25. (Previously Presented) A method as defined in claim 11, wherein the step for generating a subset list of document identifiers further comprises a step of intersecting the second list of document identifiers with the first list of document identifiers.

17/26. (Previously Presented) A method as defined in claim 11, wherein the step for generating a subset list of document identifiers further comprises a step for identifying matching document identifiers from the first list of document identifiers and the second list of document identifiers, wherein the matching document identifiers are included in the subset list of document identifiers.

18/27. (Previously Presented) A method as defined in claim 11, further comprising a step for refraining from generating a subset list of document identifiers when it is efficient to only process the first list of document identifiers.
